**PURPOSE/BACKGROUND:**

On November 22, 2002, the City of Las Vegas, the City of Henderson and the Clark County Sanitation District (now the Clark County Water Reclamation District) entered into an Interlocal Cooperative Agreement which formed the Clean Water Coalition, for the purpose of planning, permitting, designing, constructing and operating a Systems Conveyance and Operation Program (SCOP) to collect and convey treated effluent from the respective treatment facilities of each agency to Lake Mead. On May 23, 2006, the Board of Directors of the Clean Water Coalition unanimously approved the attached amended Interlocal Agreement which approves the admission of the City of North Las Vegas to the Clean Water Coalition, establishes regional connection and user fees to fund the SCOP project and makes other administrative changes to the original Agreement.
